by Taylor Rogers, AIA on May 18, 2023

The American Institute of Architects UK Chapter hosted the 2023 Excellence in Design Awards Ceremony at the Barbican on 18 May 2023. This year marked a special milestone. For over thirty years the AIA UK has organised the Excellence in Design Awards to celebrate architecture and design in not only the United Kingdom, but around the world.

Professional entries are sought from architects, industrial designers, urban planners, landscape architects and interior designers based in the UK for projects built anywhere in the world, and from practitioners based around the world for projects built in the UK. Entrants are not required to be members of the AIA as long as the criteria are achieved. [...]

07 February 2023: RAMS

Rams is a documentary portrait of Dieter Rams, one of the most influential designers alive, and a rumination on consumerism, sustainability, and the future of design.

“Indifference towards people and the reality in which they live is actually the one and only cardinal sin in design.” – Dieter Rams

For over fifty years, **Dieter Rams** has left an indelible mark on the field of product design and the world at large with his iconic work at Braun and Vitsoe. The objects Dieter has designed have touched the lives of millions of people—so many of us have had a Braun coffeemaker, shaver, stereo, calculator, speakers, or alarm clock. Or an Oral-B toothbrush. Or a Vitsoe 606 shelving system. Or any of the hundreds of other products Dieter has designed or overseen the design of.

25 April 2023: MAKING SPACES: 5 WOMEN CHANGING THE FACE OF ARCHITECTURE

For the first time in history, women are creating some of the most exciting architectural designs in the world. How have they navigated their way to the top? What is the nature of their creative process? Are there gender differences in architectural design?

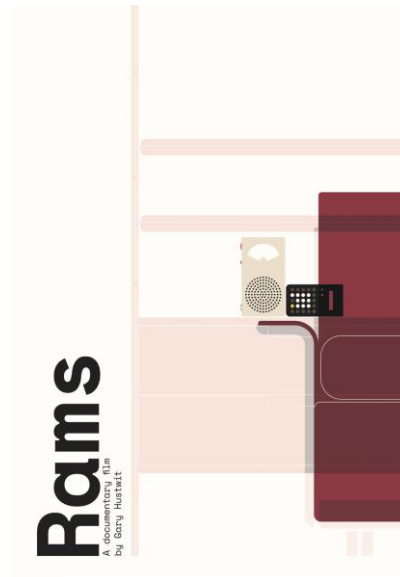

Making Space is a full-length documentary film about five dynamic and accomplished female architects: Annabelle Selldorf (New York), Marianne McKenna (Toronto), Kathryn Gustafson (Seattle and London), Farshid Moussavi (London), and Odile Decq (Paris). Come with us on this intimate journey as we see how these women are transforming the landscape of the 21st Century.

31 October 2023: THE GENIUS OF THE PLACE

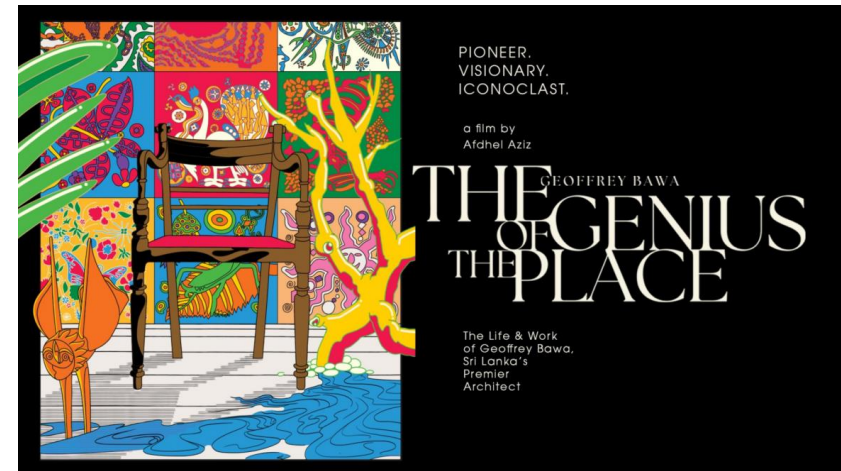

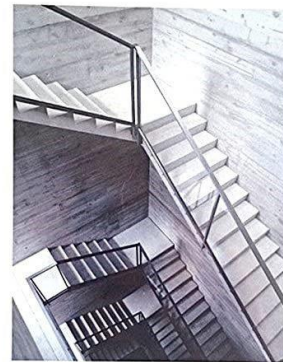

Geoffrey Bawa (1919-2003) is widely regarded as one of South Asia’s most important architects of the 20th century - the equivalent of Frank Lloyd Wright in America, Luis Barragan in Mexico or Oscar Niemeyer in Brazil. Despite many challenges throughout the years - the restrictions of building materials in post-war Sri Lanka, a thirty year Civil War that fractured the country, opposition from environmental and religious groups to one of his projects, and a series of strokes that left him paralyzed - Bawa prevailed, creating a body of work that is legendary in scale, scope and ambition.

07 November 2023: BIG EARS LISTEN WITH FEET

Acclaimed artist-filmmakers Bêka & Lemoine take us to Bangkok on a one day hectic journey through the chaotic concrete jungle of the South-Asian megacity. Led by the moving personal story of Boonserm Premthada, one of today’s most important Thai architects, the film unfolds through a free wander, punctuated by stunning encounters, events and places, which have contributed to shape Premthada’s unique identity and sensibility. Deaf from birth, the architect evokes how his disability led him to develop an alternative way of listening using his whole body as a resonance chamber of sound vibrations.

5 WOMEN CHANGING THE FACE OF ARCHITECTURE

AIA United Kingdom

This year, the AIA UK Student Charrette was hosted by KPF in their Covent Garden offices. The Chapter welcomed 70 students from 10 different universities to the event, which has gone from strength to strength since returning from a Covid break. The competition brief asked students to rethink the design of a small urban plaza in Covent Garden, and they were able to visit the site with AIA and RIBA accredited mentors, before getting started on a fast-paced day of designing. The competition was judged by practicing architects from RIBA-award winning small practices, who reviewed the student work and provided helpful feedback for each team.

The judges also reviewed the Noel Hill Award submissions and selected a winner for the 2023 Noel Hill Award. This year's award was won by Melis Ellen Gurdal, from the University of Cambridge, for their work researching water justice and distribution in the Middle East.

Treasurer's Report

Presentation by:

Alex Miller, AIA

2023 Treasurer

United Kingdom

Overview: 2023 Final Accounts

The 2023 Accounts

Broadly, the chapter operated close to budget.

The Income figures for 2023 are inflated due to early payment of 2024 sponsorship by Beale & Iris Ceramica of £7000 total. Dues income was also higher than projected.

General expenses for administration were slightly below the budgeted amount by £500, so very close to budget.

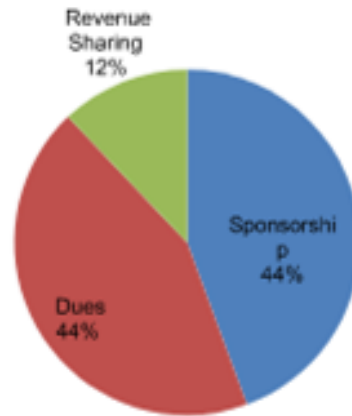

Event expenses are distorted by the delay of the Keynote lecture to January 2024. As our largest budgeted Event, the budgeted expense is circa 30% of the Events expenses total.

Event Expenses/Major Events

Expenses:

- General expenses for administration were slightly below the budgeted amount by £500, so very close to budget. These expenses are stable. A travel policy sets the contribution for travel expense to Leadership Summit & National Convention.
- A grant to also defray this travel cost has also been secured for 2024.

Income:

- The Income figures for 2023 are inflated due to early payment of 2024 sponsorship by Beale & Iris Ceramica of £7000 total. Dues income was also higher than projected.

Event Expenses:

- Event expenses are distorted by the delay of the Keynote lecture to January 2024. As our largest budgeted Event, the budgeted expense is circa 30% of the Events expenses total.

AIA United Kingdom

AIA United Kingdom Bylaws
Revised December 2023

This FOR REVIEW updated version of the AIA UK Bylaws will be raised at the 2024 AIA UK Annual General Meeting for Members approval. It updates, revises and organises the current AIA UK Bylaws based on revised new documents and actions.

1) The 10 May 2022 memo from National AIA's General Counsel, Terry Ona, which introduced a new approach to Chapter Bylaws. Namely, that Chapters, "can – and should – adopt practices and bylaws specifically tailored to how their organizations operate and are governed"

2) The motion made to and signed by the UK's Chapter Membership at the 2022 AGM to authorise the 2022 Chapter Secretary to make certain Bylaw revisions.

3) Consultation and collaboration with stakeholders, official AIA documents:

- a. The 2017 AIA UK Bylaws
- b. The AIA National Bylaws from June 2022
- c. The AIA National New Model Bylaws from May 2022
- d. The AIA National Addendum from May 2022 (updated Nov 2023)

4) The AIA National Addendum was created by AIA National to ensure that a Chapter's Bylaws are in line with National requirements. The relevant version has been attached at the end of the Bylaws and will become a Bylaw once approved at the 2024 AGM.

5) Subsequent consultation with AIA's General Counsel on the AIA National Addendum.

6) A meeting on 16 Oct 23 of an ad hoc, informal Bylaws Task Force, including Chapter Secretary, Adeline Koleva, and Director, Paolo M...

7) Miscellaneous consultation with other interested Board of Directors members throughout the process.
